

Customised Gazebo Walls

Designed To Fit Your Gazebo Perfectly

WOODMINES

Our Wooden Handmade Privacy Panels are all made to order and are custom built alongside your gazebo to ensure the perfect fit.

The structure of each privacy panel contains the same high quality materials used in each wooden gazebo kit. All of the timber used has been pressure treated to ensure a very long product life. The panels are assembled with the same high grade exterior fixings.

All WoodMines Gazebo Privacy Panels are heavy duty and not to be confused with our competitors' economy 'fence panel' products.

WOODMINES

Tongue & Groove Gazebo Walls

The 20mm thick tongue & groove Gazebo walls are handcrafted to size. We use an extra long tongue that prevents the boards from opening up under normal shrinkage, when the weather is warm and dry

Planed All Round Slatted Gazebo Wall

Planed all round slatted panels provide the option for privacy, whilst allowing light in. They have a 95mm standard wide plank

We can make custom sizes to suit your
Gazebo design!

Premium Grade Fixings
