## *About Us*

WoodMines Limited is a manufacturer of the highest quality, handmade garden furniture and structures. We pride ourselves on our reputation for designing and realising sturdy and durable outdoor products. In recent years, we have created a versatile range of garden constructions from gazebos and outdoor dining areas to barbecue and hot tub shelters, car ports and pond covers. Smoking shelters and aviary frames add to the growing list of custom made garden features produced by WoodMines. To demonstrate our commitment to creativity and customer satisfaction, we continue to offer a bespoke service for clients who want to participate in the planning and design of their outside space. If you require or desire a particular piece of garden furniture but don't see it on the WoodMines website, please contact the company. A designer will then discuss your requirements with you so that we can custom build a product to your specification

WoodMines gazebos are all made from extra thick, structurally graded, slow grown, pressure treated, timber, C24 construction graded. Each gazebo is supplied with exterior grade fixings and is quick to assemble. We can supply and fit locally. All posts are homegrown, pressure treated, smooth sanded and routed edges. Instructions are provided to enable fast and safe construction and we are always happy to answer any queries. We have been manufacturing for over 10 years and have supplied to many happy customers nationwide.! We have been developing our display area and would be happy for you to come and visit!

# [Click here to learn a bit more about WoodMines](#)

We use sustainably sourced spruce timber from forests that are continuously regrown. We are also members of Ecologi and so far we have helped to plant more than 2,500 trees in the UK, the USA, Australia and Brazil to support rewilding.

WoodMines is the company to choose if you are looking to purchase a gazebo, carport or summer house that will last. Most of our customers are people who consider a range of companies before they come to us and make a purchase. They choose us because they can see that our products are different to those of many of our competitors. All of our gazebo and roof frames are made from high quality, slow grown spruce that is C24 graded. This matters because UK weather can be extreme in any season in modern times and C24 timber is the best timber to with stand this.

# About us-Click here

WoodMines has been in business for more than a decade now. We have never been asked for a refund but we have been asked by existing customers to produce new structures for them when they have moved house!

No one wants to leave a WoodMines gazebo behind when they move! We've also been asked to build other structures such as bin stores, fire pits, bespoke seating, log stores and lean-tos for existing customers because they know our products are meticulously crafted.

# The Cubic

[Click video link](#)

The stylish Cubic Gazebo which has sleek lines , neat structure that give this a modern, streamlined feel. The cubic is ideal for those looking for a shelter that fits easily into a smaller space. The flat roof, which is under 2.5 metres from the base of the design, allows easy entry without the need for planning permission or consultation with occupants of neighbouring properties

# Regal Gazebo

[Click video link](#)

This elite outbuilding could be used as the perfect open-air extension to your home, literally bringing indoors out! Fit to shelter a garden kitchen, this gazebo is popular with those interested in outdoor living. Why not fit a wood-burning stove in your Regal gazebo, creating an atmospheric space for balmy summer evenings or a huddle hole from which to watch your firework display later in the year? Impress your garden guests with a pizza oven, bringing the essence of the Mediterranean to your own private park.

# Elegance Gazebo

WOOD MINES

The Elegance Gazebo is a very popular structure. This versatile wooden gazebo consists of a unique roof structure of our own design which is supplied in four ready built roof sections enabling a very quick and simple construction. Due to this roof design, there is a far greater amount of timber within the structure than any of our competitors.

# Celestial Gazebo

[Click video link](#)

We are proud to add the Celestial Gazebo to our range of high quality garden gazebo designs. With all the benefits of a conventional wooden gazebo, this structure boasts the advantage of a partially transparent roof, allowing light to flood in during the day. By night, you can gaze at the stars. The structure of the Celestial Wooden Gazebo is fashioned entirely out of the highest-grade timber available. The roof frame is made from smooth, strength graded, pressure-treated timber. Make a huge statement with this bespoke garden gazebo!

# Tudor Gazebo

[Click video link](#)

[Click video link](#)

Cast your eye over the Tudor luxury gazebo, the first of our new range of period designs. This sturdy tribute to the Elizabethan era, with 150mm posts as standard to support the unique roof shape, will infuse your garden with the elegance of a bygone age. Boasting substantial vertical rafters, more akin to that of a traditional house and with all of the associated properties of strength and durability, this garden gazebo will withstand the force of any invading weather. 200mm posts upgrade available!

# Imperial Gazebo

[Click video link](#)

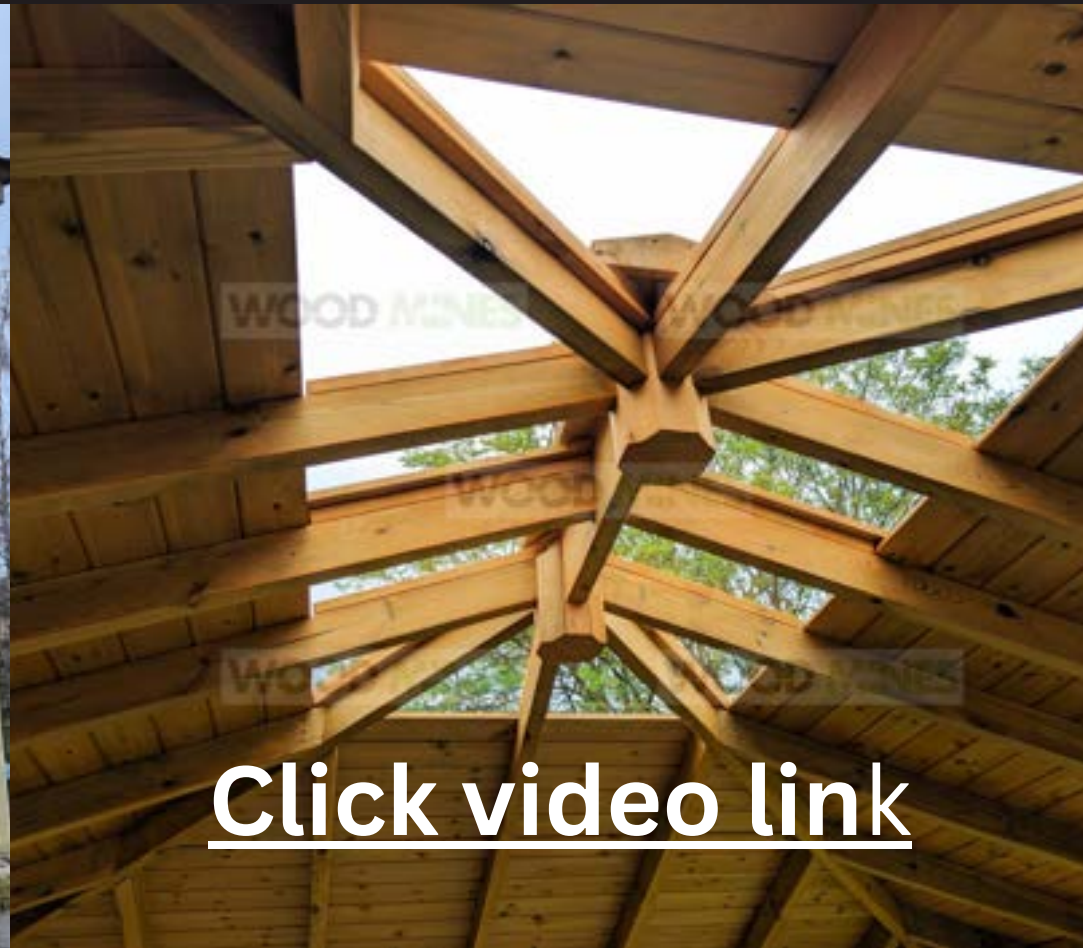

The Ultimate Hot Tub Gazebo. Constructed with the best materials, full tongue and groove roof boarding, huge corner braces, feature king post all make this gazebo the most stunning garden structure available. You can add a corner entrance and posts can be upgraded to 200mm.

# Imperial Lantern

[Click video link](#)

[Click video link](#)

The Imperial Lantern A popular add-on to our impressive top of the range Imperial gazebo kit. The roof lantern let's natural daylight in creating a beautiful feature in the centre of the tongue and groove wooden roofing. We can manufacture to a size that fits your area. Corner gazebo kits are available too!

# The Elizabethan

[Click video link](#)

The Elizabethan Gazebo has now been added to our list of successful gazebo designs. This huge structure uses massive 200mm x 75mm C24, easy edge timber in the external frame allowing us to create a structure with larger unsupported openings. A beautiful sweeping curved can be machined into the front and rear if required. Huge 200mm x 200mm x 2.4m posts are used to support this bespoke wooden structure.

# Lean To

Click video link

Are you looking for a stylish shelter or conservatory from which to view the changing seasons? Why not extend both your home and garden at once with this elegant open-air orangery. For just a fraction of the price of a permanent structure, WoodMines can custom-build this attractive and sturdy lean-to gazebo, creating a sophisticated and practical refuge from the rain as well as a safer haven under which to shelter your more temperamental garden plants

# Pent Roof Gazebo

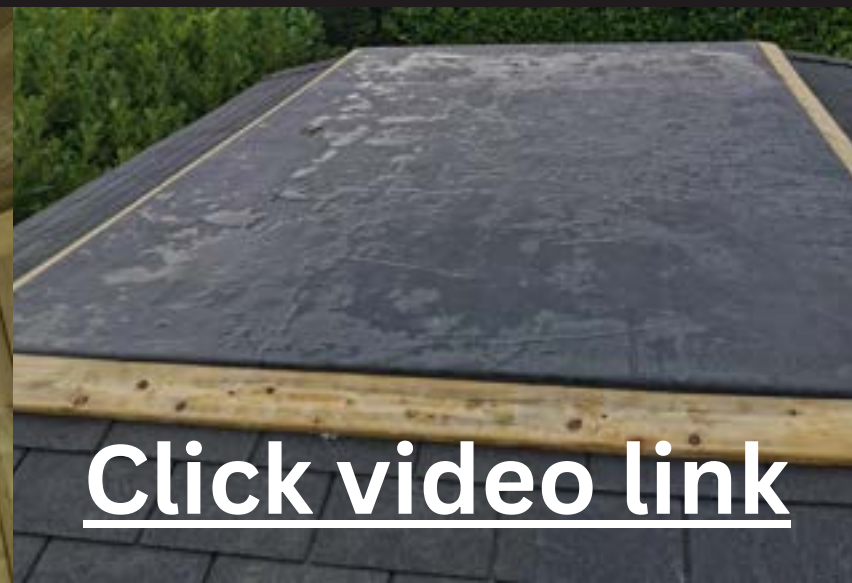

## Click video link

Introducing our new 'Pent Roof' structure. This modern gazebo with clean lines and tidy corners is a great solution for those seeking to keep the height of their outdoor shelter under 2.5m whilst maximising the entrance height of the structure. This sturdy build still allows you to customise the model with privacy walls, where needed, as the base of the roof is level, rather than sloping: it is the rafters that are tapered to create the pragmatic slope.

The Pent Roof is available in bespoke sizes to accommodate the varied requirements of our clients. Available with 150mm and 200mm posts or with privacy walls which range in style and height, it's easy to turn this gazebo into a durable, versatile and cost effective garden room.

# Flat Top Imperial

For those customers who may have neighbours who are sensitive, our 2.5m high gazebos are the perfect choice. Based on the Imperial and Regal Garden Gazebo you can have all of our usual high end gazebo accessories to complement your beautiful, incredibly solid structure! Add a skylight to let natural light through creating a luxury area to dine and socialise. Please note the skylight is only available on the Flat Top Imperial Gazebo.

# Majestic Gazebo

Using the same super strong roof design as the Elegance range we have designed a very solid set of panels to support the roof frame of the Majestic. These panels make up four corners to leave four entrances that can be closed off with matching closing panels. We offer a choice off solid wooden spindles, much thicker than others you might find available, in our range of side panels.

# Gazebo Walls-Built to last!

Our Wooden Handmade Privacy walls are all made to order and are custom built alongside your gazebo to ensure the perfect fit.

The structure of each privacy wall contains the same high quality materials used in each wooden gazebo kit. The timber used has been pressure treated to ensure a very long product life. The walls are assembled with the same high grade exterior fixings as the structures.

All WoodMines Gazebo Privacy Walls are heavy duty and not to be confused with economy 'fence panel' style products.

# Wood Treatment

At Woodmines we recommend Barrettine wood treatment to further protect your Gazebo. For rough sawn or smooth timber. Contains film biocide Preserver to prevent the surface growth of Mould/Algae.

Ideal wood treatment for outdoor timber structures such as Sheds, Fences, Trellis, Pergola and timber Gazebos. Provides excellent water repellency/beading. Oil / Solvent based for deeper penetration leaving a transparent/translucent finish colour effect to wood, where the grain texture is still visible.

# Bespoke Planters

These seriously heavy duty wooden garden planters are here to stay. Full size sleeper ends and 2" thick planks. All tanalised timber!
